

'Till the End of Time

Verse 1: When we first met
My heart skipped a beat
It fluttered then fell
To my very feet
All I wanted
Was for you to be mine
Won't you be mine
'Till the End of Time

Chorus: I won't forget
The first time we met
And I won't forget
How you made me strong
Oh, baby doll
Please don't you fret
For I'll love you
Even if I'm wrong

Verse 2: I'll always love you
'Till time passes away
Even if it's not
A very great day
So wait just a minute
Stop on a dime
Remember I love you
'Till the End of Time

Chorus: I won't forget
The first time we met
And I won't forget
How you made me strong
Oh, baby doll
Please don't you fret
For I'll love you
Even if I'm wrong

Verse 2: I'll always love you
'Till time passes away
Even if it's not
A very great day
So wait just a minute
Stop on a dime
Remember I love you
'Till the End of Time
