

## "How's The World Treating You"

Verse 1: How's the world treating you  
Is it not what it's cracked up to be  
You said you wanted to be alone without me  
(So tell me) How's the world treating me

Verse 2: How's the world treating you  
Don't know if I should come back to stay  
Just say the word and I'll come back today  
How's the world treating you

Chorus: I've been so lonely  
Since I've been without you  
But all I care for is that you're happy  
(So tell me) How's the world treating you

(Instrumental)

Verse 3: How's the world treating you  
I hope it hasn't treated you like it's treated me  
'Cause if it has then you're as lonely as can be  
(So tell me) How's the world treating you

Chorus: I've been so lonely  
Since I've been without you  
But all I care for is that you're happy  
(So tell me) How's the world treating you
