

"I WILL ALWAYS REMAIN"

Verse 1: Last night all I thought of was you
And all the things we use to do
From a late night movie
To a walk by the sea

Verse 2: I never thought it could end
It's so hard to comprehend
Now I'm all alone
How could I have known

Chorus: You passed away last summer
And I haven't seen no other
Your memories are so bright
Even when it's at night
Don't know if I'll escape this pain
It hit me like a hurricane
But I will always remain
In love with you the same

Verse 3: As I sit here by your grave
I hear your voice sayin', "Be Brave"
All I want to do is cry
And ask a simple why

Verse 4: Oh, but it's not so simple
And it's sure not sensible
Not knowing where I'm goin'
Nor what I am doin'

Chorus: You passed away last summer
And I haven't seen no other
Your memories are so bright
Even when it's at night
Don't know if I'll escape this pain
It hit me like a hurricane
But I will always remain
In love with you the same

Add: I will always remain
In love with you the same
