

"Whatcha Wanna Do That For"

- Verse 1: Whatcha wanna do that for
Whatcha wanna do that for
I have no doubt
What you're all about
You often seemed nice
But you didn't think twice
About walkin' out that door
Whatcha wanna do that for
- Verse 2: It all seemed so right
When we met that night
I never had a doubt
That it would all work out
Now I'm all alone
I'm in a warp zone
Whatcha wanna do that for
Whatcha wanna do that for
- Chorus: I offered you my heart
And you sat right down and broke it
You tore my life apart
And all I want to do is forget it
- Verse 3: Where do we go from here
I just don't know dear
I thought we were meant to be
But now I clearly see
You were just using me
To make your life carefree
Whatcha wanna do that for
Whatcha wanna do that for
- Chorus: I offered you my heart
And you sat right down and broke it
You tore my life apart
And all I want to do is forget it
- Verse 4: Where do we go from here
I just don't know dear
I thought we were meant to be
But now I plainly see
You were just using me
To make your life carefree
Whatcha wanna do that for
Whatcha wanna do that for
